

Dodawanie dataseta do projektu

1. PPM ->ADD Datasource

Data Source Configuration Wizard ? ×

 **Choose a Data Source Type**

Where will the application get data from?

 Database	 Service	 Object
---	--	---

Lets you connect to a database and choose the database objects for your application.

< Previous Next > Finish Cancel

**Choose Your Data Connection****Which data connection should your application use to connect to the database?**

GM.mdf

New Connection...

This connection string appears to contain sensitive data (for example, a password), which is required to connect to the database. However, storing sensitive data in the connection string can be a security risk. Do you want to include this sensitive data in the connection string?

- ☐ No, exclude sensitive data from the connection string. I will set this information in my application code.
- ☐ Yes, include sensitive data in the connection string.

☒ Show the connection string that you will save in the application

```
Data Source=(LocalDB)\MSSQLLocalDB;AttachDbFilename=C:\LabRepos\lab9\Lab9-05\Database\GM.mdf;Integrated Security=True
```
